---

### APPLICATION METHODS GUIDELINES

- When topdressing containers, such as in greenhouse or nursery applications, evenly spread product on the soil surface at recommended rates (ounces or pounds) per (diameter of container) or consult an Agronomist.
- For the agronomic application rates suitable for your geographical area or the maximum allowable application rates per acre, recommended rates are variable per acre and/or consult a trained soil specialist. Applications may also be done by placement or banding of fertilizer in the seed row only by recommendation from trained soil specialist.
